#### "BANG" HIT CENTER.

Inquiries Have Begun Pouring in From All Over the State.

THE LEDGER is always full of good

things.

The few days ago letter from "Bang" hit center sure, for the enthusiasm the suggestion has aroused has spread in this short space of time until away over in Central Kentucky inquiries come as to day and time of having the shoot.

The specific place will be the beautiful

field which fronts the amphitheater, all of which are upon ground owned by the Maysville Fair Co.

That the novelty of a gun club contest is calculated to please a very large num ber of men who use the gun there can be no doubt, for when a man handles the gun he does it with his heart as well as his hands, for the charm attached to this sport is exciting and kaleidoscopic in very move.

All arrangements for the shoot have not

een completed as yet, but plans have been laid sufficiently to insure a great meet for one day.

The rules governing the match will be

the American Gun Club Association rules. Thus in the start are assured fair ess, impartiality and justice to every A clay pigeon match for those who are

vitiates and who are a little afraid of practiced shots will produce much pleas-ure to a vast audience that will assemble, while a live pigeon and English sparrow trap shoot will be had for those who have heretofore been in prize matches. (This latter is still in abeyance)

Hardly is it necessary to say to thos who are devotees of "Nimrod" to get in the van and enter for this promised sport, which remains for Maysville's Old-fash oned Fair, September 22d to 25th, to in augurate and successfully carry out.

Turnout and come to the greatest of all Fairs for 25 cents. No extra charge for

It is reported in political circle at if Mayor Todd is election in November he will be ap pointed Surveyor of the Port of Louis ville. That isn't according to the "deal" made with one of the bullheaded bolters at Frankfort just prio to the Senatorial election.

THE New York Journal, which a yea ago was insisting that nothing but the free coinage of silver could bring pros perity to the United States, has evi dently changed its views. It recently published a full-page article showing high prosperous condition in New York and the country over and predicted its ontinuation.

ASSISTANT SECRETARY BRIGHAM O the Agricultural Department says Amer ican farmers this year will receive \$500,000,000 in excess of that received last year for their wheat. Wonder if that's another "campaign lie!" We'll have to ask RILL BRYAN BENT MC MILLIN, Captain TUDOR or the "Lady of the Lake" before we believe it.

THE Louisville drygoods firm of J. M. Robinson, Norton & Co. voluntarily made an advance of 10 per cent. in the wages of the 500 employes of their clothing factory. The advance was entirely voluntary. The firm is doing the largest business in its history During the entire dull season no reduc tion was made in the wages of the factory employes. And yet the croaker says times are no better.

IMPORTERS of the country had cer ainly fastened upon everything upon which they could gain any advantage in importing before the Dingley Law went into effect. Recent figures issued by the Bureau of Statistics at Washing ton show that the goods remaining in bonded warehouses at the end of the fiscal year 1897 amounted to only \$18. 137,723 as against \$51,454,342 at a corre sponding date in the preceding year.

THE Civil Service system serves notic on every American citizen that it's ne longer any use for him to work for the success of his party, whether he be Democrat or Republican. The school teacher can no longer tell the little boy that he may some day hold an office under his Government. The un-American fraud has closed the doors to pre ferment, unless, forsooth, an applicant can answer a lot of foolish questions and "hop on one foot the distance of about 12 feet."

THE Bourbon News, a stalwart Demo atic newspaper, advises its Free-silver brethren to make a free confession and ease their consciences. It says:

ease their consciences. It says:

"Our silver friends insist that the increase in price of wheat is due to short crops in foreign countries. Are the foreigners also short on cattle, sheep, mules, cotton, corn, oats, tobacco, etc., which are all bringing better prices than they did last vear? Better admit that times are improving, boys, and let your consciences feel better."

'Tisn't every Democratic Editor that has the frankness and honesty of the Paris Brother.

As A depletor of the Treasury the Dingley Bill is already a marked success. The deficit record of the Treasury for the month is \$14,351,662 and for the fiscal year to date, \$25,425,296.—
Covington Commonwealth.

Well, Br'er LAURIE, your constituoents can't be hornswoggled by such stuff as that. They know that your foreign Free-trade policy has filled to the bulgthe Republican Speakers' Bureau, ing wall point every bonded warehous tions, and hence there's likely to be a deficiency in Treasury receipts for at least a year to come. In the mean ent has decided that the bonds time, you might continue to tell your BRYAN is, and that the price of wheat is regulated by the price of silver.

Man and Boy Killed By Lightsing.
CINCINATI. Sept. 2.—Wednesday evening Thomas Macher and Vie Por-ter, employes of the Cincinnal Street etc., employes of the Cincinnal Street etc., employes of the Cincinnal Street it years old lying under an oak tree in a field near Columbian avenue, about to emile north of the Madison avenue street car line. The man and boy had during the reinstorm that occurred about 8 o'clock. Lightning struck the tree, shattering it and the electrical shock killed both the man and boy. on the road that reads to Flat Rock Church at the Northeast end of what is called the RATES ON THE RAILROADS. RAND, a large spring issues forth from under said knob, and about 150 yards to the left up on the said knob, and about 150 yards to the left up on the side of the hill is a cave or a sink hole, which has some indications of being on the stream of said spring. There does not seem to be anything peculiar about the spring, as it is formed by a depression in the rock and earth, and the rocks lie in layers, as in a great many other such places. But it has the strange feature that on a hot summer day the icy air makes one shudder with cold. I understand not very far, somewhat closer to Esquire Black's house, there is a fault or Esquire Black's nouse, there is a ratio or fissure in the hill that has no bottom so far as man knows. A rock flung in it goes bounding and rebounding against the walls of the rock until its noise dies away in the unknown distance. The away in the unknown distance. Ine rugged hills about there show indications of some eruptions in bygone days, long before this country was known to the ear-liest settlers. Back East from this spring about half a mile, is the noted Black Sulphur spring, and by going around on the North side of this knob Westward, we find many places where the strata of the earth and rocks have been disturbed by some upheaval, and when we reach Good Spring Church, just up the creek to the right some 300 yards, there is a small ridge running some 200 yards perhaps, in every conceivable way and lying in ut
